

DEPARTMENT OF AGRICULTURAL BIOTECHNOLOGY
ASSAM AGRICULTURAL UNIVERSITY, JORHAT – 785013

Online Certificate Course
on
CLIMATE RESILIENT AGRICULTURE

Sir/Madam,

We are pleased to inform that the department of Agricultural Biotechnology, Assam Agricultural University Jorhat, is offering an online certificate course on '**Climate Resilient Agriculture**' for students, research scholars and faculties from N E India and other parts of the country. The course has been designed and formulated under the aegis of the Erasmus+ of programme of European Union sponsored '**AdaptNET**' project (Strengthening research and education for the development of climate smart crops in India) and is the outcome of an international collaboration between Assam Agricultural University, with four prestigious European and three Indian partner institutes. The aim of the course is to make learners aware about climate change and its impacts on agriculture and allied sectors and, to educate them on adaptation and mitigation tools and technologies. It will be conducted every year over an online platform (such as Microsoft Teams) and the call for applications to register for the course has been made available. The classes will be conducted by a group of trained and competent faculties from Assam Agricultural University as well as renowned scientists and experts from European and other Indian institutes. Upon successful completion, the candidates will be awarded with a course completion certificate. Interested candidates are encouraged to apply by emailing duly filled in registration form (or Google form) enclosed herewith.

Course duration: 5 months (3 hours per week)

Eligibility: M.Sc./Ph.D. students, post-doctoral fellows, research scholars (JRF/SRF etc.), teaching faculties

Experts from outside AAU:

Prof. Andreas Voloudakis, Agriculture University of Athens, Greece
